

Catch registration FishReg

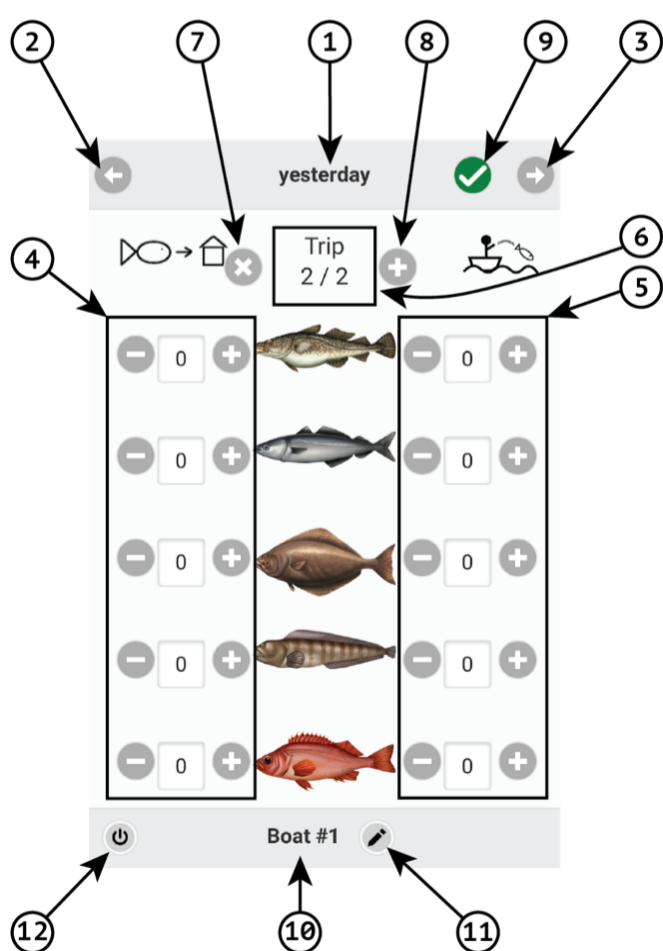

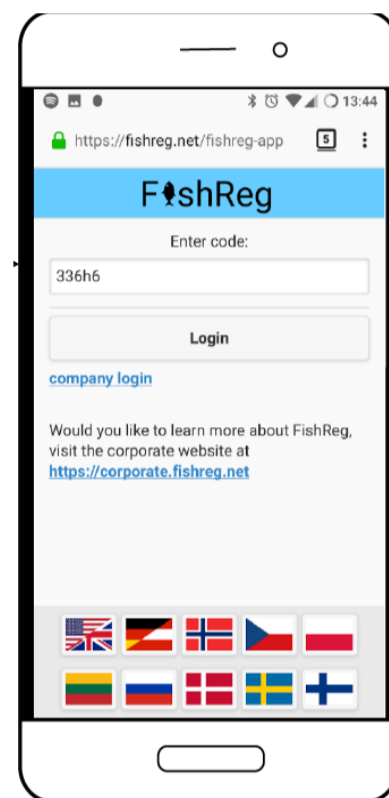

Since 1 January 2021, it is only possible to export fish from Norway if you are staying at a registered tourist fishing facility. All accommodations at Hitra Turistservice belong to the registered tourist fishing facilities. The quota for the export of fish and fish products is 18 kg. Freshwater fish such as salmon and trout are not within the 18 kg export quota.

As a fishing guest you must:

- Register catch daily
- The catches must be registered in numbers
- Fish that have been released must also be registered.
- Trips without a catch must also be registered
- Catches must be registered per boat

How to register catches using FishReg

1. Get code from your landlord
2. Open Chrome or Firefox App
3. Go to fishreg.net
4. Enter code
5. Click „Login“
6. Choose boat (if you rent multiple boats)
7. Register catches

- 1 Date
- 2 Previous trip
- 3 Next trip
- 4 Kept fishes
