

Catch registration GoFish

Norway has introduced a new export quota for 2026. It is only possible to export fish from Norway if you are staying at a registered tourist fishing establishment. Only persons who have reached the age of 12 are permitted to use the export quota. All accommodations with Hitra Turistservice are registered tourist fishing establishments. As of 2026, the quota for the export of fish and fish products is 15 kg. Freshwater fish such as salmon and trout are not included in the 15 kg export quota.

As a fishing guest you must:

- Register catch daily
- The catches must be registered in numbers
- Fish that have been released must also be registered.
- Trips without a catch must also be registered
- Catches must be registered per boat
